
St. Joseph's College Banora Point Medication Policy Template

MEDICATION POLICY

PURPOSE

The purpose of this *Policy* is to establish a framework and provide directions for the administration of medication to students enrolled in the school/college.

POLICY FRAMEWORK

This college acknowledges that the dignity, safety and well being of students are central to the values underpinning the school. The college also recognises that it is responsible and accountable for ensuring, so far as is reasonably practicable, the health, safety, privacy and welfare of students enrolled at the school. It is also acknowledged that, arising from the duty of care that schools owe to their students, there will be occasions when the administration of medication is necessary to support students during the course of normal school/college activities.

To meet its obligations this school is committed to:

- Providing practical support for the parents/caregivers of students who require medication during school activities
- Maximising the participation in school/college activities of students who require medication or special procedures for managing a health condition
- Optimising the health, safety and wellbeing of students

POLICY CONTENT

Definition

Medication refers to medication prescribed by or used on the advice of a medical practitioner and which is considered essential to be administered at the college for a student to achieve optimum health and to participate fully in school life. Medication is likely to be associated with a health condition such as epilepsy, diabetes, asthma, anaphylaxis, cystic fibrosis, Attention Deficit Hyperactivity Disorder (ADHD), or other conditions diagnosed by a medical practitioner.

POLICY RESPONSIBILITY

Responsibilities of parents

Parents are responsible for:

- Obtaining the relevant medication forms from the school and arranging for their completion and return
- Providing the medication in the original labeled container to the nominated staff member
- Ensuring the medication is not out of date and has an original pharmacy label with the student's name, dosage and time to be taken
- Providing a request by parents and written instructions from a medical practitioner for medication that is not obtained on prescription, indicating:

- Name of student
- Condition for which the medication is required
- Guidelines for administration

Responsibilities of the school

The school/college is responsible for:

- Informing the school/college community of college procedures for the administration of medication and the management of health conditions
- Providing parents with relevant medication forms for completion
- Providing information to and training for staff on the administration of medication for the health conditions about which parents have notified the school/college
- Developing a management plan (in consultation with parents) for students who require long term medication or management of a health condition at school/the college
- Developing a safe system for the storage and administration of medication
- Keeping and storing records of all medication administered
- Developing procedures to manage particular medical conditions such as asthma, diabetes, ADHD, anaphylaxis and epilepsy
- Following protocols that incorporate safety and security considerations for students approved to self-administer medication and/or self manage a health condition
- Reminding students (where necessary) about taking medication
